New York State BMP Project - Pollinator Survey

The NYS BMP project is conducting a survey related to pollinators and practices on NYS golf courses. Please support this effort by taking this short (5 minutes or less) survey: https://cornell.qualtrics.com/SE/?SID=SV_1OkT6yl63tYyzd3

This survey will help guide our education and outreach efforts this year as we formulate Best Management Practices, create presentations with pollinator-related information tailored to the informational needs of the state's superintendents, and communicate the support of the industry for pollinator protection to regulators and legislators.

Please forward this email on to your fellow superintendents in the state. Thank you for support.
